DKT
SECURE TRAFFIC SOLUTIONS

PERSONNEL RELIEF

Immediately after installation, you can fully concentrate on your day-to-day business.

STAND-ALONE SOLUTION

The stele (1.500 x 420 x 100 mm) can be set up and put into operation directly in the market or retail store.

INDUSTRIAL QUALITY

High quality and reliable industrial components with the latest sensor technology (ToF) and computer unit. Stele made of aluminum, powder-coated, 100% Made in Germany.

FAST AVAILABILITY

Deliverable within a few days.

PLUG & PLAY

Simply set up, connect power (230 V), enter the maximum number of customers and input / output side and, if necessary, import advertising. The system then starts automatically.

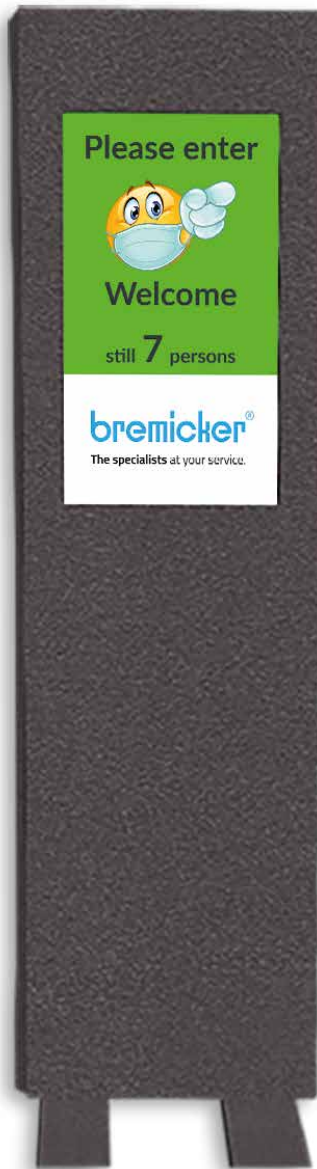

YOUR ADVERTISING AREA

Use your logo, your text request and your own branding if necessary! Customizable quickly and easily.

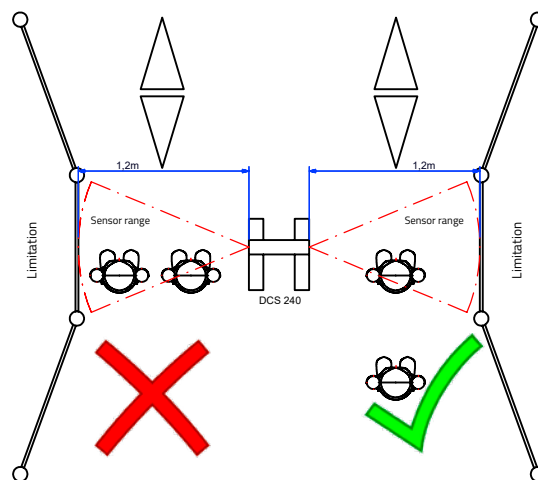

INDIVIDUALLY EXTENDABLE

An additional entry pillar can be easily integrated.

The digital access control system from DKT only has to be purchased once and can be set up on site in a short time.

Rear maintenance flap for quick and easy commissioning of the device via USB stick.
